Feb 09, 2016 Hi, Here are a few things you can try (if you haven't already): See if the 'Headphones' or 'Speakers' devices are disabled by right clicking on the 'playback devices' screen, and verify that 'Show disabled devices' and 'Show disconnected devices' options are checked.. The heat problem must have been fixed in the Surface Pro 2 because I used my Surface Pro 2 for over 6 hours today working on a sermon, and never noticed that it heated up. While the Surface Pro design hasn't largely changed since the Surface Pro 4, Microsoft is expected to.. The Microsoft Surface Laptop has a 'combo audio' or head set' jack, so any computer headphone + mic with 3-5 mm or 1/8" plug should work.. Microsoft is working on a new design of its Surface Pro, expected to debut later this year. [Site Grabber](#)
